PROFESSIONAL SUMMARY

Front End Developer with **6+ years of experience** designing, building, and optimizing high-performance web applications across **FinTech, Health-Tech, Media, and Enterprise ERP** domains using **React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, and CSS3**. Deep expertise in **Redux** state workflows, reusable UI component libraries, **RESTful API** integration with **JSON Web Tokens (JWT)** authorization, and real-time / **WebRTC-based** interactive product experiences, complemented by hands-on experience with **Electron.js** and modern front-end build pipelines (**Vite, Webpack**).

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python, PHP
Frontend & Desktop: React.js, Next.js (App Router, SSR), Electron.js, React Native
State, Auth & APIs: Redux Toolkit, RTK Query, TanStack Query, Zustand, RESTful APIs, JSON Web Tokens (JWT), OAuth2
Real-Time, Streaming & Styling: WebRTC, WebSockets, Tailwind CSS, shadcn/ui, SASS, Bootstrap
Build Tools, Testing & Pipelines: Vite, Webpack, Git, CI/CD Pipelines, Jest, React Testing Library, Playwright, Sentry
Backend & Databases: Node.js, Express.js, Python, PHP (Laravel), MySQL, MongoDB, Docker

PROFESSIONAL EXPERIENCE

Software Engineer | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **Reusable React Components & UI Architecture:** Developed and implemented scalable enterprise web applications using **React.js, Next.js, and TypeScript**, translating UI/UX designs and wireframes into **30+ reusable UI components** and front-end libraries with **Tailwind CSS and shadcn/ui**.
- **Redux Workflows, RESTful APIs & JWT Authorization:** Engineered predictable state management and data caching using **Redux Toolkit (RTK Query), TanStack Query, and Zustand**, integrating **RESTful APIs** secured with **JSON Web Tokens (JWT)** and role-based access control.
- **Real-Time, WebRTC & Build Pipeline Optimization:** Delivered interactive real-time and **WebRTC / media streaming** capabilities, and optimized component performance across web browsers by **~35%** via code splitting, memoization, and **Vite / Webpack** build pipelines.
- **Code Reviews, Testing & Cross-Functional Collaboration:** Collaborated with cross-functional teams to design and ship features, maintaining code consistency through active **Git code reviews**, debugging, and automated testing (**Jest, React Testing Library, Playwright**).

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Developed customer-facing **Health-Tech** web applications using **React.js, Redux, JavaScript (ES6+), HTML5, and CSS3**, enabling thousands of patients to search diagnostic tests and book home sample collections online.
- Built internal operations and real-time reporting dashboards integrated with **RESTful APIs and JWT authentication**.
- Delivered cross-platform mobile and desktop-ready application features using **React Native and Electron.js** workflows.

Frontend Engineer | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Translated wireframes into responsive **Health-Tech** interfaces using **React.js, HTML5, and CSS3**, building an interactive digital prescription web app and real-time doctor consultation portal.

KEY PROJECTS

Oxford Forex — FinTech Currency Exchange Platform | React.js, TypeScript, Redux, REST APIs, Tailwind CSS Website

- Developed interactive currency conversion calculators, live exchange rate feeds, and multi-step customer booking flows optimized across all major web browsers.

Choto — URL Shortener & Link Analytics Platform | React.js, TypeScript, REST APIs, JWT, Tailwind CSS Website

- Built a high-speed URL shortening and link management web application featuring custom alias creation, QR code generation, and real-time click analytics tracking.

ABN OTT — Interactive Video Streaming & Media Platform | React.js, Next.js, TypeScript, WebRTC / Media Streaming Website

- Engineered a multi-language video streaming web application with real-time media playback, interactive content discovery carousels, and cross-browser performance optimization.

AI-Integrated Enterprise ERP Platform — AB Global | React.js, Next.js, TypeScript, TanStack Query, JWT Website

- Engineered core ERP workflow modules, JWT-secured role-based views, and reusable data-grid/form component libraries with strict **Zod + React Hook Form** validation.

eCook Administrative & Operations Panel — ATEC Global | React.js, Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Architected a multi-role administrative panel with granular role-based access control (RBAC), consuming multiple REST APIs across a distributed backend microservices architecture to manage IoT operations, telemetry, and customer workflows.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
