PROFESSIONAL SUMMARY

Full-Stack Software Engineer with **5+ years of experience** developing, testing, and maintaining scalable full-stack web applications. Proven expertise in building responsive, interactive user interfaces using **Next.js, AngularJS, React.js, and TypeScript** alongside high-performance backend RESTful APIs and microservices using **Node.js, Python, and PHP (Laravel)**. Experienced in managing **SQL and NoSQL databases** (MySQL, PostgreSQL, MongoDB) and deploying, monitoring, and scaling containerized applications on **DigitalOcean** and **Linux** servers with **Docker and CI/CD** pipelines.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, PHP, SQL, HTML5, CSS3
Frontend: Next.js (App Router, SSR), AngularJS, React.js, Tailwind CSS, SASS, Redux Toolkit, Zustand, TanStack Query
Backend & APIs: Node.js, Express.js, Python, PHP (Laravel), RESTful API Design & Integration, Microservices
Databases (SQL & NoSQL): MySQL, PostgreSQL, MongoDB, Redis, Firebase
Cloud, Linux & DevOps: DigitalOcean, Linux Server Environment, Docker, CI/CD Pipelines, Git, GitHub, Nginx
Testing & AI Workflows: Jest, React Testing Library, Playwright, Sentry, LLM APIs, RAG, Claude Code, Cursor

PROFESSIONAL EXPERIENCE

Software Engineer (Full Stack) | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **Full-Stack UI & Legacy Modernization:** Built responsive, interactive web applications using **Next.js, React.js, and AngularJS** with **TypeScript and Tailwind CSS**, delivering 30+ reusable, well-documented components while optimizing frontend performance by ~35%.
- **Backend Services & RESTful APIs:** Designed, developed, and integrated secure, scalable RESTful APIs and backend services using **Node.js (Express.js), Python, and PHP (Laravel)**, backed by **MySQL, PostgreSQL, and MongoDB** databases.
- **Cloud Deployment & Linux Infrastructure:** Deployed, managed, and monitored full-stack applications on **DigitalOcean** and **Linux** server environments using **Docker, Nginx, and Git CI/CD** pipelines to ensure high availability and security.
- **Cross-Functional Collaboration & Testing:** Collaborated closely with Product, Design, and QA teams across sprint cycles, enforcing clean code standards through code reviews, debugging, and automated testing (**Jest, Playwright**).

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Developed and maintained customer-facing booking applications and internal operations dashboards using **React.js and AngularJS**, serving thousands of active users.
- Built and integrated backend **RESTful APIs** using **Python and Node.js** with SQL/NoSQL data stores, optimizing query execution and API response times.
- Managed application deployments on **Linux / DigitalOcean** servers and delivered cross-platform features in **React Native**.

Frontend Engineer | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Built interactive web applications using **React.js, AngularJS, HTML5, and CSS3** integrated with **Python REST APIs** for a digital prescription and doctor platform.

KEY PROJECTS

Oxford Forex — Currency Exchange Platform | React.js, TypeScript, Node.js, REST APIs, Tailwind CSS Website

- Developed real-time currency conversion calculators, live exchange rate APIs, and multi-step customer booking workflows for an Australian FinTech platform.

Choto — URL Shortener & Link Analytics Platform | Next.js, React.js, Node.js, MongoDB, DigitalOcean Website

- Engineered a high-throughput URL shortening and link management application with custom aliases, QR code generation, and real-time click analytics deployed on Linux cloud infrastructure.

ABN OTT — Video Streaming & Media Platform | Next.js, React.js, TypeScript, REST APIs, Docker Website

- Built a scalable multi-language OTT video streaming web application featuring adaptive media playback, content discovery carousels, and RESTful backend integration.

Enterprise ERP & Operations Platform — AB Global | Next.js, AngularJS, Node.js, PHP (Laravel), MySQL Website

- Developed full-stack ERP modules, role-based access control, and RESTful API services while migrating legacy AngularJS views into modular Next.js + TypeScript interfaces.

eCook Administrative & Operations Panel — ATEC Global | Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Architected a multi-role administrative panel with granular role-based access control (RBAC), consuming multiple REST APIs across a distributed backend microservices architecture to manage IoT operations, telemetry, and customer workflows.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
