PROFESSIONAL SUMMARY

AI-focused Software Engineer with **6+ years of production engineering experience** building AI-integrated enterprise ERP platforms, intelligent web applications, and full-stack systems using **LLM APIs, Retrieval-Augmented Generation (RAG), Model Context Protocol (MCP), Next.js, TypeScript, and Node.js**. Proven track record of bridging generative AI capabilities with scalable production architectures—engineering streaming AI interfaces, structured schema outputs (**Zod**), context-aware enterprise workflows, and high-performance full-stack applications.

TECHNICAL SKILLS

AI & Agentic Engineering: LLM APIs (OpenAI, Anthropic Claude, Gemini), RAG Pipelines, Model Context Protocol (MCP), Prompt Engineering, Structured Outputs & Function Calling

AI Developer Ecosystem: Claude Code, Cursor, GitHub Copilot, AI-Assisted Code Generation & Automated Workflows

Languages & Core Stack: TypeScript, JavaScript (ES6+), PHP, SQL, HTML5, CSS3

Frontend & AI UI: React.js, Next.js (App Router, Server Actions, Streaming UI), Tailwind CSS, shadcn/ui

State, Validation & Data: TanStack Query, Redux Toolkit, RTK Query, Zustand, Axios, React Hook Form, Zod

Backend & Databases: Node.js, Express.js, Laravel, Django REST Integration, MySQL, MongoDB, Firebase

Testing, DevOps & Monitoring: Docker, Git, GitHub, Linux, Vercel, Sentry, Jest, React Testing Library, Playwright

PROFESSIONAL EXPERIENCE

Software Engineer (AI & Full-Stack Applications) | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **AI-Integrated ERP Workflows:** Designed and integrated AI-powered capabilities into enterprise ERP modules using **LLM APIs, RAG pipelines, and Prompt Engineering**, enabling intelligent data querying, automated reporting, and assisted operational decision-making.
- **Structured AI Interfaces & Schema Validation:** Engineered type-safe AI response handling, conversational/interactive UI components, and strict payload validation using **Next.js (App Router, Server Actions), TypeScript, and Zod**.
- **Scalable Architecture & State Management:** Built **30+ reusable UI components** (**Tailwind CSS, shadcn/ui**) and asynchronous data caching layers with **TanStack Query and Redux Toolkit (RTK Query)**, reducing redundant API calls across data-intensive dashboards.
- **Full-Stack APIs & Performance Optimization:** Contributed to backend orchestration and REST services using **Node.js, Express.js, and Laravel**, while improving dashboard load speed and **Core Web Vitals by ~35%**.
- **AI-Augmented Delivery & Quality Assurance:** Leveraged **MCP, Claude Code, and Cursor** to accelerate engineering velocity alongside automated testing (**Jest, React Testing Library, Playwright**) and production monitoring (**Sentry**).

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Developed intelligent search, package comparison, and diagnostic booking flows for a healthcare e-commerce platform using **React.js** and **Django REST APIs**.
- Built operational and administrative dashboard interfaces to automate lab order tracking, dispatch workflows, and real-time analytics reporting.
- Delivered cross-platform mobile application features in **React Native** integrated with backend healthcare APIs.

Frontend Engineer | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Built a digital prescription automation web application using **React.js** and implemented responsive healthcare portals with **Django, HTML5, and CSS3**.

KEY PROJECTS

Oxford Forex — Currency Exchange Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Developed real-time currency conversion calculators, live exchange rate integrations, and automated customer booking flows for an Australian FinTech platform.

Choto — URL Shortener & Link Analytics Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Built a fast URL shortening and link management web application with custom alias creation, QR code generation, and click analytics tracking.

ABN OTT — Video Streaming & Media Platform | Next.js, React.js, TypeScript, Tailwind CSS, REST APIs Website

- Engineered a multi-language OTT video streaming web application featuring adaptive media playback, content discovery carousels, and responsive cross-device UI.

AI-Integrated Enterprise ERP Platform — AB Global | LLM APIs, RAG, Next.js, TypeScript, TanStack Query, Zod Website

- Architected AI-assisted enterprise ERP modules combining **LLM APIs and RAG** with strict **Zod + React Hook Form** schema validation, role-based access control, and real-time data synchronization.

eCook Administrative & Operations Panel — ATEC Global | React, Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Engineered a multi-role administrative panel with role-based access control (RBAC), consuming multiple REST APIs across a backend microservices architecture for IoT telemetry and customer management.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
