PROFESSIONAL SUMMARY

Full-Stack Software Engineer with **6+ years of experience** architecting and delivering enterprise ERP, FinTech, and Healthcare web applications using **React, Next.js (App Router, Server Actions), TypeScript, Node.js (Express.js), and Laravel**. Proven track record of owning complex features end-to-end across the stack—designing RESTful APIs, relational/NoSQL database schemas (**MySQL, MongoDB**), reusable UI component systems, and caching layers that improve performance and developer velocity. Experienced in integrating AI-powered workflows (**LLM APIs, RAG**) and containerized deployments.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), PHP, SQL, HTML5, CSS3
Frontend: React.js, Next.js (App Router, Server Actions, SSR), React Native, Tailwind CSS, shadcn/ui, Sass
Backend & APIs: Node.js, Express.js, Laravel, Django (REST Integration), RESTful API Design, Auth & RBAC
Databases: MySQL, MongoDB, Firebase, Relational Schema Design, Query Optimization
State, Data & Forms: TanStack Query, Redux Toolkit, RTK Query, Zustand, Axios, React Hook Form, Zod
Testing, DevOps & Tools: Docker, Git, GitHub, Linux, Vercel, Sentry, Jest, React Testing Library, Playwright
AI & Workflows: LLM APIs, RAG, MCP, Prompt Engineering, Claude Code, Cursor, GitHub Copilot

PROFESSIONAL EXPERIENCE

Software Engineer | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **Full-Stack ERP Architecture:** Architected and maintained multi-tenant enterprise ERP and administrative applications across the stack using **React.js, Next.js (App Router, Server Actions), TypeScript, Node.js (Express.js), and Laravel**.
- **Backend Services, APIs & Databases:** Designed and implemented **RESTful APIs**, authentication/RBAC workflows, server-side business logic, and optimized **MySQL and MongoDB** queries supporting high-volume enterprise operations.
- **Reusable UI & Typed Data Layer:** Built **30+ reusable UI components** with **Tailwind CSS and shadcn/ui** and engineered end-to-end typed data fetching and caching layers using **TanStack Query, Redux Toolkit (RTK Query), React Hook Form, and Zod**.
- **Performance & AI Integration:** Improved application load speed and **Core Web Vitals by ~35%** via SSR, caching strategies, and code splitting, while integrating AI-assisted ERP workflows using **LLM APIs and RAG**.
- **Quality Assurance & DevOps:** Strengthened release reliability using containerized **Docker** environments, automated testing (**Jest, React Testing Library, Playwright**), and production monitoring (**Sentry**), while leading code reviews and technical planning.

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Developed customer-facing healthcare e-commerce features using **React.js** integrated with **Django REST APIs**, enabling thousands of patients to search diagnostic lab tests, compare packages, and book home sample collections online.
- Built internal operations and administrative dashboard interfaces to manage lab test orders, partner diagnostics, dispatch workflows, and real-time reporting.
- Delivered cross-platform mobile application features in **React Native** and collaborated on full-stack API integration and maintenance.

Frontend Engineer | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Built an interactive digital prescription web application using **React.js** and implemented responsive healthcare portals and doctor branding templates using **Django, HTML5, and CSS3**.

KEY PROJECTS

Oxford Forex — Currency Exchange Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Developed real-time currency conversion calculators, live exchange rate integrations, and customer booking flows for an Australian foreign exchange platform.

Choto — URL Shortener & Link Analytics Platform | React.js, TypeScript, Node.js, REST APIs, Tailwind CSS Website

- Developed a high-speed URL shortening and link management web application with custom alias creation, QR code generation, and click analytics tracking.

ABN OTT — Video Streaming & Media Platform | Next.js, React.js, TypeScript, Tailwind CSS, REST APIs Website

- Built a multi-language OTT video streaming web application featuring adaptive media playback, content discovery carousels, and responsive cross-device UI.

AI-Integrated Enterprise ERP Platform — AB Global | Next.js, TypeScript, Node.js, Laravel, LLM APIs Website

- Engineered full-stack ERP workflow modules, role-based access control (RBAC), REST API integrations, and reusable data-grid/form components with strict **Zod + React Hook Form** validation and AI-assisted querying.

eCook Administrative & Operations Panel — ATEC Global | React, Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Architected a multi-role administrative panel with role-based access control (RBAC), consuming multiple REST APIs across a backend microservices architecture for IoT telemetry, analytics, and customer operations.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
