PROFESSIONAL SUMMARY

Frontend-focused Software Engineer with **6+ years of experience** architecting and delivering enterprise ERP, FinTech, and Healthcare web applications using **React, Next.js (App Router), and TypeScript**. Proven track record of owning complex features end-to-end—engineering reusable component systems, strictly typed API layers, and caching strategies that improve Core Web Vitals and team velocity. Experienced in AI-powered workflows (LLM APIs, RAG) and full-stack collaboration with **Node.js and Laravel**.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), PHP, HTML5, CSS3

Frontend: React.js, Next.js (App Router, Server Actions, SSR), React Native

State, Data & Forms: TanStack Query, Redux Toolkit, RTK Query, Zustand, Axios, React Hook Form, Zod

UI & Styling: Tailwind CSS, shadcn/ui, Sass, Bootstrap

Backend & Database: Node.js, Express.js, Laravel, MySQL, MongoDB, Firebase

Testing, DevOps & Tools: Jest, React Testing Library, Playwright, Git, GitHub, Docker, Linux, Vercel, Sentry

AI & Workflows: LLM APIs, RAG, MCP, Prompt Engineering, Claude Code, Cursor, GitHub Copilot

PROFESSIONAL EXPERIENCE

Software Engineer | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **Frontend Architecture & Component Systems:** Architected and maintained multi-tenant enterprise ERP and admin web applications using **React.js, Next.js (App Router, Server Actions), and TypeScript**, building **30+ reusable UI components** with **Tailwind CSS and shadcn/ui** that standardized design and accelerated feature delivery.
- **Typed State & Data Layer:** Engineered end-to-end REST API integration and caching workflows using **TanStack Query, Redux Toolkit (RTK Query), Axios, React Hook Form, and Zod**, cutting redundant network requests and eliminating runtime schema mismatches.
- **Performance Optimization:** Improved initial page load speed and **Core Web Vitals by ~35%** on data-heavy ERP dashboards via route-level code splitting, memoized rendering, virtualized tables, and server-side data fetching.
- **AI & Full-Stack Collaboration:** Integrated AI-assisted ERP workflows (**LLM APIs, RAG**) and contributed to backend services and API endpoints using **Node.js, Express.js, and Laravel**.
- **Quality Assurance & Engineering Leadership:** Strengthened release reliability with automated testing (**Jest, React Testing Library, Playwright**) and error monitoring (**Sentry**), while driving requirement analysis, code reviews, and sprint planning with cross-functional teams.

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Developed customer-facing healthcare e-commerce features using **React.js**, enabling thousands of patients to search diagnostic lab tests, compare packages, and book home sample collections online.
- Built internal operations and administrative dashboard interfaces to manage lab test orders, partner diagnostics, dispatch workflows, and real-time reporting.
- Delivered cross-platform mobile application features in **React Native** and integrated RESTful APIs powered by **Django**.

Frontend Engineer | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Built an interactive digital prescription web application using **React.js** and implemented responsive personal-branding web templates for doctors using **HTML5, CSS3, and Django**.

KEY PROJECTS

Oxford Forex — Currency Exchange Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Developed interactive currency conversion calculators, live exchange rate views, and customer booking flows for an Australian foreign exchange platform.

Choto — URL Shortener & Link Analytics Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Developed a high-speed URL shortening and link management web application with custom alias creation, QR code generation, and click analytics tracking.

ABN OTT — Video Streaming & Media Platform | Next.js, React.js, TypeScript, Tailwind CSS, REST APIs Website

- Built a multi-language OTT video streaming web application featuring adaptive media playback, content discovery carousels, and responsive cross-device UI.

AI-Integrated Enterprise ERP Platform — AB Global | Next.js, TypeScript, TanStack Query, Tailwind CSS, LLM APIs Website

- Engineered core ERP workflow modules, role-based access views, and reusable data-grid/form components with strict **Zod + React Hook Form** validation and AI-assisted querying.

eCook Administrative & Operations Panel — ATEC Global | React, Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Architected a multi-role administrative panel with granular role-based access control (RBAC), integrating multiple REST APIs across a backend microservices architecture to manage IoT devices, telemetry, and customer operations.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
