PROFESSIONAL SUMMARY

Results-driven **Senior Software Engineer with 6+ years of experience** designing, developing, and scaling mission-critical enterprise ERP, FinTech, and Healthcare software systems. Expert in modern JavaScript/TypeScript ecosystems (**React, Next.js, Node.js, Express.js**) and backend integration (**Laravel, MySQL, MongoDB**). Adept at owning the complete software development lifecycle (SDLC)—from system architecture and requirement analysis to automated testing, performance optimization, and production delivery.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), PHP, SQL, HTML5, CSS3

Web & Mobile Frameworks: React.js, Next.js (App Router, Server Actions, SSR), React Native, Node.js, Express.js, Laravel

Architecture & State: Modular Architecture, TanStack Query, Redux Toolkit, RTK Query, Zustand, RESTful APIs, Zod

Databases & Storage: MySQL, MongoDB, Firebase, Data Modeling, Query & Caching Optimization

UI Engineering: Tailwind CSS, shadcn/ui, React Hook Form, Sass, Bootstrap, Responsive Design Systems

Quality, DevOps & Tooling: Jest, React Testing Library, Playwright, Docker, Git, GitHub, Linux, Vercel, Sentry

AI & Modern Engineering: LLM APIs, RAG, MCP, Prompt Engineering, Claude Code, Cursor, GitHub Copilot

PROFESSIONAL EXPERIENCE

Software Engineer | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **System Design & Modular Architecture:** Architected and delivered scalable enterprise ERP and business web applications using **TypeScript, React.js, and Next.js (App Router, Server Actions)**, building **30+ reusable components** that standardized engineering patterns across teams.
- **API Layer & Data Consistency:** Owned end-to-end REST API design and integration, implementing strongly typed schemas and caching strategies with **TanStack Query, Redux Toolkit (RTK Query), Axios, and Zod** to eliminate runtime data errors.
- **Backend Services & AI Capabilities:** Developed and maintained backend services using **Node.js, Express.js, and Laravel** alongside **MySQL/MongoDB**, and integrated AI-powered workflows (**LLM APIs, RAG**) into enterprise modules.
- **Performance & Scalability:** Optimized application rendering, database query payloads, code splitting, and caching strategies, improving initial load performance and **Core Web Vitals by ~35%**.
- **SDLC Ownership & Quality Assurance:** Led technical planning, code reviews, automated testing (**Jest, React Testing Library, Playwright**), and production observability (**Sentry, Docker**) in collaboration with QA, product, and backend engineers.

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Engineered core e-commerce and diagnostic booking modules for a healthcare platform using **React.js** and **Django REST APIs**, serving thousands of patients scheduling home lab tests.
- Developed internal operational and administrative software interfaces to manage lab orders, partner diagnostics, dispatch workflows, and reporting.
- Contributed to cross-platform mobile application development in **React Native** and maintained production API integrations.

Software Engineer (Frontend) | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Developed an interactive digital prescription application using **React.js** and built responsive web portals for healthcare practitioners using **Django, HTML5, and CSS3**.

KEY PROJECTS

Oxford Forex — Currency Exchange Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Engineered interactive currency conversion calculators, live exchange rate integrations, and customer order booking flows for an Australian FinTech platform.

Choto — URL Shortener & Link Analytics Platform | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Built a fast URL shortening and link management platform with custom alias generation, QR codes, and real-time click analytics tracking.

ABN OTT — Video Streaming & Media Platform | Next.js, React.js, TypeScript, Tailwind CSS, REST APIs Website

- Engineered a multi-language OTT video streaming web application featuring adaptive media playback, content discovery carousels, and responsive cross-device UI.

AI-Integrated Enterprise ERP Platform — AB Global | Next.js, TypeScript, Node.js, Laravel, LLM APIs Website

- Designed and delivered core enterprise ERP modules, role-based access control, reusable data-grid/form systems with **Zod + React Hook Form**, and AI-assisted business workflows.

eCook Administrative & Operations Panel — ATEC Global | React, Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Built a multi-role administrative panel with granular role-based access control (RBAC), integrating multiple REST APIs across a backend microservices architecture to manage IoT devices and customer operations.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
