PROFESSIONAL SUMMARY

Web-App & Frontend Engineer with **5+ years of hands-on experience** architecting, building, and scaling high-performance web applications using **React.js, AngularJS, Next.js, and TypeScript**. Proven expertise in maintaining legacy **AngularJS** codebases while spearheading incremental migrations to modern **React** architectures. Adept at state management (**Redux, Zustand, Context API**), RESTful API & microservices integration, **PWA** optimization, and geospatial dispatch workflows (**Google Maps API**), backed by solid proficiency in **Node.js** and **Docker**.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, PHP
Frontend & Frameworks: React.js, AngularJS (1.x & Legacy-to-React Migration), Next.js, React Native, PWA (Service Workers)
State & Data Management: Redux Toolkit, Zustand, Context API, TanStack Query, RTK Query, RESTful APIs, Axios, Zod
UI, Styling & Geospatial: Tailwind CSS, SASS/SCSS, shadcn/ui, Bootstrap, Google Maps API, Mapbox
Build Tools, Testing & CI/CD: Vite, Webpack, Jest, React Testing Library, Playwright, Git, CI/CD Pipelines, Sentry
Backend & Containers: Node.js, Express.js, Laravel, Microservices Architecture, Docker, MySQL, MongoDB

PROFESSIONAL EXPERIENCE

Software Engineer | Riseup Labs *October 2022 – Present | Dhaka, Bangladesh*

- **Web-App Architecture & AngularJS-to-React Migration:** Architected scalable enterprise web applications using **React.js, Next.js, and TypeScript**, while maintaining legacy **AngularJS** admin modules and migrating critical workflows to reusable **React + Tailwind CSS** component systems.
- **State Management & Microservices API Integration:** Engineered predictable state and caching layers using **Redux Toolkit, Zustand, Context API, and TanStack Query**, seamlessly integrating RESTful APIs across distributed microservices with **Node.js** backend teams.
- **Performance & Build Optimization:** Improved initial page load speed and **Core Web Vitals by ~35%** across desktop and mobile browsers via code splitting, lazy loading, memoized rendering, and optimized **Vite / Webpack** bundle configurations.
- **Testing, Code Reviews & CI/CD:** Enforced code quality through active peer code reviews, automated unit and end-to-end tests (**Jest, React Testing Library, Playwright**), containerized **Docker** environments, and automated **Git CI/CD** pipelines.

Software Engineer | AmarLab *May 2021 – August 2022 | Dhaka, Bangladesh*

- Developed responsive customer-facing booking web apps (**PWA**) in **React.js** and maintained existing **AngularJS** operational views, enabling thousands of users to schedule home sample collections seamlessly.
- Built internal logistics, fleet dispatch, and administrative dashboards integrating **Google Maps API** for address pinpointing, collection agent routing, and real-time order status tracking.
- Collaborated closely with backend engineers to consume RESTful APIs and delivered cross-platform mobile features in **React Native**.

Frontend Engineer | OnCallMedico *October 2020 – April 2021 | Dhaka, Bangladesh*

- Translated UI/UX wireframes into responsive web interfaces using **React.js, AngularJS, HTML5, CSS3, and SASS**, delivering an interactive digital prescription platform and doctor portal.

KEY PROJECTS

Oxford Forex — Real-Time Currency Booking Web App | React.js, TypeScript, REST APIs, Tailwind CSS, Vite Website

- Developed high-conversion interactive calculators, live rate feeds, and multi-step customer order flows optimized for mobile and desktop web browsers.

Choto — URL Shortener & Link Analytics Web App | React.js, TypeScript, REST APIs, Tailwind CSS Website

- Built a fast, user-friendly URL shortening and link management platform with custom alias generation, QR codes, and click analytics tracking.

ABN OTT — Video Streaming & Media Platform | Next.js, React.js, TypeScript, Tailwind CSS, REST APIs Website

- Engineered a multi-language OTT video streaming web application featuring adaptive media playback, content discovery carousels, and responsive cross-device UI.

Enterprise ERP & Operations Portal — AB Global | React.js, AngularJS Migration, TypeScript, Zustand, Tailwind CSS Website

- Refactored legacy AngularJS modules into modular React + TypeScript views with strict **Zod + React Hook Form** validation, role-based access control, and high-density data grids.

eCook Administrative & Operations Panel — ATEC Global | React.js, Next.js, TypeScript, Redux Toolkit, Microservices APIs

- Architected a multi-role administrative panel with granular role-based access control (RBAC), consuming multiple REST APIs across a distributed backend microservices architecture to manage IoT operations, telemetry, and customer workflows.

EDUCATION

BSc in Computer Science and Engineering | North Western University, Khulna *2015 – 2019*
